DEAR FUTURE FAMILY;

I am looking forward to come into your family and want to take this opportunity to tell you about me and where I live. My name is Gabriela, ever one calls me simply Gaby. My family consists of my mother Dana (42), my twin sisters Katarina and Pavia (10) and my stepbrother (30). I grew up in Popovica (a small village). After I finished my primary school I moved to bigger town. There I went to school for tourism but after some time I move back to my family. After I graduated high school I graduated all with A) moved into my own apartment in Olomouc.

From September 2004 I have been working for TV company First I started like a business secretary, after two and half months I have been promoted and since then I have been working like TV programming and acquisition executive. I didn't continue with my college because I wanted to have one year free for my trip to Great Britain, to see this land and to learn language and then go on some college but I got this good job. I tried to work and go to the college at the same time, but that's not impossible with this kind of job. I work until 6 — 6.30 pm. So I decided to earn enough money to pay this program and spend one year in Great Britain working like babysitter. It is my dream to know Great Britain.

My mother is housewife. She is my mother but she is also one of my best friends. I like to spend my time with her. She is very modern woman. She is 45 years old from me and I spend my weekends with her and my sisters. Almost every Saturday we go to shopping and to take a brunch. My father is Vladimir; after he finished high school he was studying mechanical engineering. After he had received degree he had worked like director in one company. My parents are divorced. But

I'm still a happy child and I'm not sad, because they are divorced. Every week I go to visit my father

My experience with children started with my sisters when I was only 10, because my parents had to work I took care about my sisters. Through this period I learned everything about children. I decided to take care about boys because I needed money for my trips. I like to travel. But at the same time I started to

love these children like they are my blood. Steffany is one really beautiful child. I called her little princess. What I did with children — giving them a bath, playing with them, changing diapers, changing a clothes, taking them to school, circus, theatre, playground, parks to play with another children, playing with cars, puzzle, legos, watching cartoons, feed them, taking them to doctor; go to shopping, in warmer months taking them outside and to swimming pools, prepare dinner or breakfast, read a book

My passion is travelling, I have been until now in Italy; Slovenia, Hungary; Germany (for a months by my aunt), Great Britain, Poland, Austria, Greece, Switzerland, . And my favourite destination was Thailand. This is something amazing. For me it is the most beautiful place on earth. I had so big desire to visit it. I had some money from babysitting and the rest my parents gave me because I graduated all with A. I was there alone for 10 days and I were everywhere. It was my best experience in life.

What I expect from my host family? I 'in expecting support and equally attitude with children, with mine communication with people there and with their culture, English traditional and I would like to attend their college. I look forward to come into your home and to making my time with you a rewarding, educational and enjoyable experience.

Sincerely Gaby :7)
